

B6 Jursi Skate-Pass-Shoot - U18 F

Key Points:

This is a drill that Russian Olympic coach Vladimir Jursinov used when I was coaching with him in Austria. The goal is to get players to practice passing and shooting while they skate. Puck handling-passing-shooting should be seamless.

Description:

1. A and B skate down the ice in passing while skating.
2. A is on the inside and continues on with a shot while skating.
3. B pivots facing the puck and continues the other direction passing to C.
4. B shoots and C partners with D the other way.

This can be done in tandem on both sides of the ice.
