

## G 3-0 - Triangle Shooting Finnish U20

### Key Points:

Another drill that Finnish goalie coaches use to produce those great goaltenders.  
Goalie must stay square to the puck and make the save and then battle to stop the rebound.

### Description:

1. One player on each side and one at the mid point.
2. Players take turns skating in and shooting while the other two skaters come in for a rebound.
