Key Points:

Teaching method for instructing the forecheck so all the players understand. This can be used to teach any forecheck.

1. Two defenders are at the top of the circle and five attackers in the neutral zone.
2. Start with 2 D who skate forward to the blue line and then backward.
3. The coach dumps the puck in and 5 players forecheck vs. the 2 D and two coaches who are outlets along the boards.
